

Jungle Friends Word Search

Can you find the 19 underlined words in this word search puzzle? The words can go in any direction: up, down, forward, backward or at an angle.

Jungle Friends Primate Sanctuary is in Gainesville, Florida. They rescue lots of New World monkeys in need. There are different kinds of monkeys at Jungle Friends: capuchins, spider monkeys, squirrel monkeys, marmosets and tamarins. At the sanctuary, the monkeys live in large, outdoor habitats where they can enjoy the fresh air and sunshine. They love to climb in the trees and swing on ropes, and they especially love to play with other monkeys. When they are tired of playing, they like to hang out with their monkey friends and groom each other.
